security testing

An application should maintain its functionality and have adequate security mechanisms to protect its data. For the software to be successful,

Stqc testing

STQC stands for Standardization Testing and Quality Certification. It is an initiative by the Ministry of Electronics and Information Technology

precise testing solution Pvt Ltd

Solution or Strategy

Strategies refer to high-level actions to be developed to achieve defined objectives, while solutions are related to how these actions will be implemented.

- Solution strategies handle how core products and services are produced, designed, distributed, promoted, and innovated over time

- Product life cycles seem to be very short in software industries
